THE REPUBLICAN.

JACKSONVILLE, N. C.

WEDNESDAY, DECEMBER 24, 1856.

We are authorized to announce **B. F. Page**, as a candidate for Tax Collector of Benton County, election first Monday in August next.

We are authorized to announce **B. F. Bray**, Esq., as a candidate for Tax Collector of Benton County.

The Next Governor.

We notice that the papers in various parts of the State are bringing forward prominently the claims of their different friends and favorites for the office of Governor. The Huntsville Democrat of the 17th inst. publishes a communication recommending Mr. W. F. Safford, of Tuskegee, editor of the *True Union*, as a suitable candidate, and in allusion to a former notice of Hon. J. F. Walker, says that "the choice could not fall on an able or better man"; and speaks also in terms of high commendation of the Hon. John E. Moore of North Alabama. The Democrat also mentions the fact that the *North Alabama Register* has declared a preference for Hon. T. A. Walker, of this County, over all others; and says in reference to the North Alabama Register that:

"He is a staunch, reliable State Rights Democrat, and it will afford us pleasure to support him, if he secures the nomination. By the by, Judge Walker's energetic discharge of his duties as President of the Ala. & Tenn. R. R. Co., is eliciting the warmest encomiums of the Press in East Alabama; and we doubt whether his time and talents can be employed more beneficially to the public, than by speedily giving the people of North, Middle and South Alabama a Rail Road connection, making us one people in fact as we are by political organization."

This is a hand-some and well deserved compliment to Judge Walker; but if the editor means to say that he could perform a more acceptable service as Rail Road President than Governor, it reminds us of a bill, supplementary to the graduation course pursued by the federal party, introduced into the Senate by Mr. Clay, towards Gen. Jackson, when they said he Clay, one of the Senators from this State, was a most excellent General, but were there several amendments needed to be unwilling to reward him with a civil office. In case of his election, Judge Walker will make his provisions more equal and impartial, and we hope our Senator will succeed in accomplishing the much needed amendment.

Mr. CLAY, in pursuance of previous notice, asked and obtained leave to introduce a bill supplementary to the act entitled "An act to graduate and reduce the price of the public lands to actual settlers and cultivators," approved August 4, 1854, which was read the first time, and ordered to a second reading.

Mr. CLAY. This is a bill in which a large number of my constituents are deeply interested, as well as the constituents of every representative of the Land Surveyor. The Secretary of the Interior, no doubt with a laudable desire to suppress frauds which had been committed against the graduation act, approved in August, 1854, has, in my opinion, as well as a provision of legislation and has suspended conditions to the acquisition of land to those lands which are unoccupied either by the Government or the laws of the land. Some of those conditions can never be complied with, and consequently persons who have complied with their contracts with the Government under the graduation act must be dispossessed of their lands. I trust that the Committee on Public Lands will take the subject into consideration, and speedily report it. In order that they may report, and that this bill may become a law at an early day, I hope it will be now read a second time, with a view to reference. I think it proper to state, in this connection, that it is to state, the bill offered by one of my colleagues in the House of Representatives (Mr. Smoot) which I leave to the Committee on Public Lands they have unanimously agreed to report, and to consider its passage.

The bill was read a second time, and referred to the Committee on Public Lands, and is almost sure to be fatal to the claims of any prominent man.

STATE CONVENTION.—Some of the papers are recommending as early as the 2nd Monday in January, and Montgomery as the place for a State Democratic Convention to nominate a candidate for Governor. The Advertiser & Gazette suggests the first Monday in February, which we think full early, but are willing to abide upon it, and Montgomery as the place.—We shall interpose no objection to the time and place agreed on by the majority, and will of course give due notice of it when settled.

Huntsville Female College. The Spring session of this Institution will open the 2nd Monday in February, with Rev. G. M. EVERHART, still continuing as President, and its usual able and diligent faculty of Teachers. This institution has steadily increased in favor with the public, and in number of pupils, for years, until now perhaps it is second in popularity and patronage to none in the State. We are glad to see that the number of pupils from this section are increasing, and we know that none will return dissatisfied.

For particulars see advertisement in another column, and also address the President for catalogue.

New Orleans Grocery Market. We invite the particular attention of dealers in Groceries, and persons who purchase their supplies at wholesale prices, to the advertisement of **Converse & Co.** New Orleans. It is a large saving, but nevertheless true, that New Orleans is the best, if not the very best Grocery market in the world. Messrs. **Converse & Co.** have been long engaged in business in New Orleans, and are well and favorably known to numbers of business men in our State and Western Georgia. Rail Road facilities from that direction are rapidly approaching us, and dealers could not do better than visit New Orleans, or order their supplies, from Messrs. **Converse & Co.**

We acknowledge ourselves under obligations to our Senators, Messrs. Fitzpatrick and Clay for public documents relative to Kansas affairs, pamphlet copies of the President's message, &c.

Rome Female College.

We referred to a communication on the subject of this institution in our last. By reference to advertisement in another column, it will be seen that the first session will commence on the 1st of March of February next. The Trustees have employed able and competent Teachers for the four departments, Primary, Collegiate, Music and Ornamental; and to the selection of Rev. J. M. M. CALDWELL, for President, who has been a resident of Rome for a number of years, they have shown just appreciation of merit and capacity. It will be seen, as we suggested last week, that the school will be denominational, but not sectarian. We not only heartily wish this College success, but predict for it a career of usefulness and prosperity, which very few can rival.

Algonquin Conference.

Rev. W. D. MATTHEWS has been appointed by the recent Conference Presiding Elder of this District, and M. M. GRIGG, on the Jacksonville Circuit, and Rev. R. J. Woodward for White Plains. The full list of appointments will be given in our next.

Rev. H. S. W. HARRIS our Representative from this district, will please accept our thanks for the 1st & 3rd vol. of "United States Japan Expedition," by Com. M. C. Perry." We hope in due time to receive from him the 2nd vol.

We also acknowledge ourselves under many obligations to Hon. J. F. POWELL, for many valuable public documents and papers.

In consequence of the extreme inclemency of the weather, on Saturday last, it was thought best by Mr. Sims and his friends, to postpone his address to Kansas until the 1st Monday in January next.

In the proceedings of Congress, on the 16th inst. we find the following notice of a bill supplementary to the graduation course pursued by the federal party, introduced into the Senate by Mr. Clay, towards Gen. Jackson, when they said he Clay, one of the Senators from this State, was a most excellent General, but were there several amendments needed to be unwilling to reward him with a civil office. In case of his election, Judge Walker will make his provisions more equal and impartial, and we hope our Senator will succeed in accomplishing the much needed amendment.

Mr. CLAY, in pursuance of previous notice, asked and obtained leave to introduce a bill supplementary to the act entitled "An act to graduate and reduce the price of the public lands to actual settlers and cultivators," approved August 4, 1854, which was read the first time, and ordered to a second reading.

Mr. CLAY. This is a bill in which a large number of my constituents are deeply interested, as well as the constituents of every representative of the Land Surveyor. The Secretary of the Interior, no doubt with a laudable desire to suppress frauds which had been committed against the graduation act, approved in August, 1854, has, in my opinion, as well as a provision of legislation and has suspended conditions to the acquisition of land to those lands which are unoccupied either by the Government or the laws of the land.

The enemy would not fight, except behind a wall, and Gen. Walker, after due consideration, concluded to storm the stronghold, and give them nothing for a shield which was already done.

The large and more valuable part of the army was destroyed, and after four days' fighting the enemy were entirely repulsed.

After this was accomplished, Gen. Walker returned to Granada to execute his plan, which were well consider- ed, namely, that Granada being a very sickly place it was disadvantageous for the troops to return there, and he had been since compelled to make Rivas the capital, and knowing that upon the execution of Granada that the town might be occupied by the enemy who, however, he determined to burn the place, and accordingly gave three days notice to all persons to remove all goods and valuables, and at the end of the time during the town—not leaving a vestige of a single building—smashing all his stones with provisions and implements of war, and Gen. Walker, after due consideration, concluded to storm the stronghold, and give them nothing for a shield which was already done.

On the 14th inst., by the Rev. J. D. Rendell, Mr. H. W. L. Durrell of Oxford, Ala. to Miss SUSAN E. EATON of this County.

Mr. EATON's for record, & Esq. wishes several

W. W. WILSON, Dec. 12.

The Sugar Duty—Suspension of its operation—assort to it more upon East & Redwood Iron—Pay of Army Officers, &c.

The burden of the sugar duty is severely felt, and complained against the proposed rate of duty, as very general. Gen. Houston's resolution for suspending the execution of suspending the article for a day, for two years, will be considered by the Committee on Finance, who report, will suggest still on the 1st, will be looked for with interest. The duty is thirty percent ad valorem, and therefore the higher the grade of sugar the higher becomes the duty. When sugars are cheap the tax is small, and when they are dear the duty becomes exorbitant and oppressive.

The value of the sugar imported is about twenty-one million, and of the domestic produce fifteen millions. The duty operates as a tax upon the entire consumption of the article, and therefore, amounts to near twelve millions. Sugar, Wm. W. W., would be but eight cents where it is now twelve, or six cents where it is now nine.

It is probable that Gen. Houston's measure in limiting the exemption to two years, will to afford time for the consideration of the sugar culture in the South, and also for the result of the experiments now about to be made with the Chinese sugar cane, which is found to be a prolific everywhere south of the parallel of 26°.

It is rumored, too, that a combined and formidable assault is to be made in Congress upon the railroad from states. The southern, western and northern railroad interests may all be combined in favor of some measure, at this session, for their interest by reducing, refunding or abolishing duties on railroad iron. For the promotion of the Pacific railroad, a pension measure of this kind is to be strongly urged.

Congress is expected to take up the subject of the tariff, at this session, and the time is more favorable for the adoption of a "judicious tariff" at the close, than at the commencement of a party contest.

The bill for the annullation of the pay of commissioned officers of the army was neglected at the late session, in consequence of the prolixity of political disputes, but it is well known that the measure was generally approved. The bill now brought day morning, in the woods near White Hall, hanging to the limb of a tree, and quite dead. He had been engaged in hauling wood to the city, and is supposed to have hung himself using the reins from the harness for the purpose.—*At. Int'l.*

At. Negril Slaves. We understand that a negro, age about 16 years old, belonging to Mr. H. T. McDaniel, of this city, was found yesterday with his master, said to be in the State of Alabama, for their favorite constitution and liberal patronage. We hope for success, and it is our purpose to merit it.

W. S. COCHRAN, T. President.

Now—Miss Nelson is well acquainted with the French language, and speaks it fluently as her own. Dec. 24, 1856.—th.

Highly Important from Nica-

ragua.

FOUR BATTLES FOUGHT!

Walker Triumphant!!

The steamship *Texas* arrived at New Orleans on the 10th, with highly exciting intelligence from Nicaragua. We make the following extracts from our New Orleans exchanges:

The news from Nicaragua is of the most exciting and thrilling character since our last. Series of battles have taken place between the American forces and the combined forces of Central America, in all of which the Americans have been entirely successful. True, the professors with their entombed, would hardly pass muster in our literary institutions, unless the quantity of hair on their faces should constitute a sufficient qualification. Their lives are devoted to their calling. Sometimes they set forth wholly on their own account, subsisting, for the most part, on such game as they may happen to capture. On other occasions they act simply as guides, or *compagnies de voyage* for the initiated. We have heard the veritable He Heli, who makes his rendezvous on Pasey Island, about twenty-five miles from Chapeaux Lick, and with his associates, Capt. Boone and John Parnell, make frequent forays among the duck tribes with fearful savagery.

These men often take forty-five or fifty canoas, and encircle the shores of the Chapeaux Lick, and capture the game as it comes up. Week before last, they took one hundred ducks in three days and a half. He has with him on this trip about fifty brace of black ducks, saved from six days' shooting on the Delaware, after deducting as were used for provisions; but he is returning for a trio of hunters with a small smack and three boats, to convey themselves in the sledge, within gunshot of their decoys, and capture the game as it comes up, a water-dog assisting. They often have plenty of work; but he says, it isn't a circumstance to what he has seen in the Bay of Chaleur, on the coast of Labrador, while in the cod-fishery, where young ducks, just fledged, literally covered the water, and tens of them might have been taken with the hand. In the absence of a market, there was no disposition to disturb them.

THE BRAZIER.—The first combat of this masked wonder was given in New York on Monday evening,--

The Times says:

"The story of Thalberg's reception last night has been told in great detail in a thousand different places.—

He came, he saw, he conquered. A middle-aged gentleman, wonderfully like a fox hunting solo of Morris Engelhard, stepped on the platform and with some difficulty and formal diffidence, accepted a curtain call, and then, in a thousand different different places, he came, he saw, he conquered. A middle-aged gentleman, wonderfully like a fox hunting solo of Morris Engelhard, stepped on the platform and with some difficulty and formal diffidence, accepted a curtain call, and then, in a thousand different different places, he came, he saw, he conquered. Administrator's Sale

NEGROES.

By virtue of an order of the Hon. the Judge of the Probate Court of Benton County, Alabama, made on the 11th day of December, 1856, will sell, at my house, near Alexandria, in said County on the 19th day of January, 1857, at public auction to the highest bidder.

Three Likely Negroes, belonging to the estate of Frances Boyd, dec'd. Said Negroes to be sold on a credit of ELEVEN MONTHS, with interest from date, with note and approved security.

JOHN RAMEY,
Administrator of said Estate.
Dec. 17, 1856.—51.

The Last Notice Perhaps.

THE undersigned has determined to leave Jacksonville, and avails himself of this medium to return grateful acknowledgement to his friends in this country for the many favors shown him in "things me by."

Though it may be somewhat painful to disturb pleasant relations, yet it is every-day practice, to sacrifice convenience to interest. Hence he is constrained to seek a new location; and consequently is very desirous to have all his business settled. He hopes that those friends who are indebted to him individually or to the firm of Woodward & White, will come forward promptly and settle.

By so doing, they will render him a great favor, which will be as kindly remembered as former acts of kindness.

Dec. 17, 1856.—2r. W. H. WHITE.

No Misleads

THIS TIME!

All persons indebted to J. A. M. Campbell, and J. A. McCampbell & Co. are hereby notified, that if they do not wish to pay cost, they must pay up between this time, and the close of the month of January next—the sooner the better. They need not expect any other notice or request.

J. A. McCAMPBELL

Dec. 17, 1856.—1f.

TERRELL DISCLOSURES!

SECRETS FOR THE MILLION!

A most Wonderful and Invaluable Publication.

DR. B. GATES'S

Medical Manual;

Being an original and popular Treatise on

MAN & WOMAN.

Their Physiology, Functions and Sexual

Disorders of every kind, with never-fail-

ing Remedies for the speedy cure of

all diseases of a private and deli-

cate character, incident to the

violations of the Laws of Na-

ture and of Nature's God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate

of one of the first medical schools in the United States, and has devoted a portion of a century

to the study and treatment of syphilis and kindred

disorders as a specialty, has become posse

ssed of most invaluable information in re

gard to the same, and is able to compress into vade

meum a great variety of medical knowledge

and science on this important subject, as the result

of the experience of the most eminent physicians

in Europe and America is thoroughly demonstra

ted in his own highly successful practice in the

treatment of secret diseases in many thousands

of cases in the United States and Europe.

This work has been well received, and

still is universally, but at the same time, admi

red by a number of eminent physicians,

and is highly recommended by the medical profession.

It is a medicine which must benefit everybody,

from the simply delicate to the confined and

despairing invalid, no equal is to be found. If

you have contracted the terrible disease, which

when once seated in the system, is almost incurable,

you will find in this work a noble youth, a

brilliant hope of permanent and blighting in the

liver, the great organ of life, a young man, a noble youth, a

whose life is to be spared, and who may be

restored to health and happiness.

It is a volume that should be in the hand of

every man in the land, whether used as a preven

tive of secretives, or as a guide for the allevia

tion of every kind of affliction.

It is a volume that has received the unquali

fied recommendation of the first physicians in

the land, while many physicians, fathers, mothers,

philanthropists and humanitarians, have most

freely extended its circulation in quarters

where it was well received, and where it may be

a service to the world, and a regeneration

to the world in every kind.
